tldr:

>Israel breaks ceasefire and strikes Iran
>Trump responds with B2 bunker busters on nuclear sites
>Iran hits all Gulf oil fields and US bases, blocks Hormuz and Bab el-Mandeb
>Oil prices skyrocket, blackouts in Africa and third world
>US sends 3 aircraft carriers
>At least 2 sunk by Iran, Russia, and China using suicide tactics
>US tries amphibious invasion, first fails with massive casualties
>Second attempt succeeds, oil fields seized, advance halts
>US civil war begins, anti-war bloc takes DC with military support
>US splits in two and retreats from Middle East
>Turkey betrays NATO, joins Russia-Iran-China alliance, attacks Israel
>China invades Taiwan and Guam
>North Korea invades South, Japan fails to stop it
>India possibly flips sides
>Russia invades Poland and Baltics, links to Kaliningrad
>Finland and NATO invade Russia, take Saint Petersburg
>Europe collapses into riots, famine, and civil wars
>Latin America allies with China and Russia
>US invaded from the south, advance stops at Colorado
>50 to 150 tactical nukes used high in atmosphere
>Tsar Bomb and two strategic nukes used in Europe
>Israel destroyed, Palestinians wiped with it
>Air travel ends, crime and chaos everywhere
>3 weeks of nuclear events
>Fake alien invasion begins
>MJ12 releases synthetic alien soldiers (PLFs)
>PLFs hunt survivors, FEMA camps classify people as useful or undesirables
>By 2027, 5 billion dead
>Fake aliens defeated with help of real ones
>One world government under MJ12 and the UN
>Dome of the Rock destroyed
>Script complete

>Israel breaks the ceasefire resumes it's genocide (this was not in the operation plan or the files but added by me because it's obvious at this point)
>Israel strikes Iran
>Iran retaliates and Trump strikes back with his Israeli masters
UPDATE (he will used the bunker buster bombs on the underground nuclear sites of Iran with the B2 bombers that will happen soon)
>Iran then strikes every single oil and gas field in the Persian Gulf and all their energy infrastructure and blockade the strait of Hormuz as a result oil prices are sky-high blackouts throughout Africa and some middle eastern states and other 3rd World
UPDATE (they will also strike almost every single base in the Middle East and Mediterranean and the Strait of Bab El-Mandeb will be blockaded shortly but the Houthis won't have as much success as Iran in Hormuz)
>America arrives with 2 aircraft carriers Infront of the strait and a 3rd is in the Red Sea

UPDATE (they don't have to be on the Hormoz straight they can be in the Indian Ocean or the Red Sea or the Mediterranean)
>at least 2 aircraft carriers get sunk there's a reason Millennium Challenge 2002 Iran war game was leaked MJ12 did that on purpose to give Iran an insight to how they could dismantle the U.S naval power through hit and run/suicide tactics they don't follow the exact plan but the innovate on it
UPDATE (they won't use that tactic on aircraft carriers only it will include other ships and it will more than 2 carriers that will be sunk but not only by Iran it will also include Russia and China)
>there's a reason why Trum, Hegseth, and Rubio are in control they are the perfect war hawks the perfect puppets and they will literally destroy America all for the sake of Israel
>the U.S. tries amphibious invasion the first one fails massive casualties and I mean MASSIVE are the result of the failed assault and the 2 aircraft carriers they try the second one it works but the casualties keep on mounting they take the oil fields and cut Iran from their main energy source
UPDATE (the invasion became a non-priority so it may or may not happen but if it will our insider said it will be a one-time thing and they won't progress further than the oil fields which they will take)
>right before America secures the oil fields and starts to head inland of Iran a civil war breaks out in the United States of America courtesy of MJ12
UPDATE (the protests about ICE and Latino divisions are all scripted and manufactured by them and so will the anti-war protests)
>and this where that anon from with dream comes in yes they do take the White House and the rest of D.C. but they don't do much fighting aside from initial skirmishes the U.S will just break off into 2 states they anti-war faction (Democrats and some cons who are against this war) are the ones that take control of D.C and 2 of the 7 fleets join them aside from a large number of militaries officers and soldiers who are against this war
>America pulls back leaves the Middle East for good; Turkey invades Kurdistan, Israel and Egypt go all (no nukes yet)
UPDATE (Turkey will play good first with NATO but then will side with the “bad guys” in the end stages of this war and they will attack other states like Israel and even the USA to some extent) parallel to these events not after
>China invades Taiwan and Guam
>North Korea invades South Korea, engages the Americans that are left there, Japan tries to help but won't do much, India vs Pakistan and China go down- the whole Asian continent is in flames
UPDATE/CORRECTION (China and Pakistan are going to be allies in the upcoming war, they will take on India and other smaller states but in the original plan it was stated that India will change its mind and join the "bad guys" after it suffers a lot, our insider doesn't know if this will still go down or not as for China and Guam and Taiwan it will take advantage of the U.S. distraction go all out on the American Pacific theater the second front, it won't hold Taiwan and Guam but it will land force after some very heavy losses and fighting with the Americans and its allies and carriers will be sunk here, both American and Chinese in this front)

>Australia and New Zealand won't be touched by WW3 also parallel to the events of China/U.S. and Iran/U.S.
>Russia will see the current global events and will make its move
>Russia and Belarus invade a small part of both Poland and Lithuania to bridge the gap between Belarus and Kaliningrad they link up
>they then do a pincer maneuver they attack the Baltic states that have been cut off from Kaliningrad in the south and another Russian army from the north that invades through Estonia they get bogged down and NATO won't respond as people think
>Article 5 of NATO is activated
UPDATE (we don't know which front will activate article 5 of NATO first even in the files MJ12 says that the human factor is unpredictable and it would be madness to think that our plan will go word for word as we laid it out because after all no plan survives first contact)
>but this doesn't mean anything, immediately after this happens civil unrest and civil war will break out in France and Germany
>Hungry and Slovakia and parts of Serbia flip sides and join Russia against NATO/EU, American has only a few forces in there
>Finland and whatever is left of NATO invades Russia and they too get bogged down, but in the files, it is stated that Saint Petersburg will fall to them
>civil war and riots break out in the U.K.
UPDATE (all of Europe will plunge into chaos and riots and civil wars alongside the war with Russia and food will be scarce)
>at this stage I want everyone to know that the world goes down after the initial U.S. invasion of Iran but it goes down even more than that after the China and Russia events looting will be a global phenomenon the U.S and the rest of the world will be plunged into riots like they never seen before crime is rampant, and most air travel will cease
UPDATE (Venezuela and other countries will join the "bad guys" alongside other cartels and gangs of central and South America but they will also get busy with gang warfare and civil wars to fight any of the American allies in the region, South and Central America will go down, Israel will be wiped off the map for the most part by Turkey Egypt and others but also they will take down the native Palestinians with them)
MASSIVE UPDATE nukes will be used only in the last days of WW3 with some exceptions like the Tsar Bomba and other 2 strategic nukes and the rest will be tactical nuclear warheads and they will be anywhere between 50 to 150 warheads and they will mostly get detonated high in the atmosphere
>the civil unrest will eventually affect the NATO response and military strength Russia will take the Baltics and kick out the invaders from the north and hold the gains in mainland Europe with its allies (Slovakia and Hungry and some of Serbia)
>China Russia and Iran will send a combined fleet to the Gulf of Mexico
UPDATE (China Russia and Iran and Turkey and others will send troops to America and they will make it as to look like that America lost WW3)
>Mexico and most central American and South America too with the exception of Argentina will all ally with the Chinese and Russians

>they will invade like that anon said in 2016 but the nukes won't just go off in Texas it will be all over the world all tactical non is a major nuke except the Tsar Bomba will be used in the European front that's the only major nuke that MJ12 will allow
UPDATE (like I said in the corrections it will be the Tsar Bomba with 2 other strategic nukes and the rest will be tactical nuclear warheads and they will be anywhere between 50 to 150 warheads and they will mostly get detonated high in the atmosphere)
>the invasion of U.S soil will be like the poster said but look at the map that he drew it will never reach/go further than Colorado because that's where MJ12 HQ is located in Cheyenne Mountain Complex, El Paso County, Colorado like I said all the way back in my first thread BECAUSE they will be running the show from there lol and you know the rest from my first thread
>after 3 weeks of worldwide nuclear detonations they will show up
>MJ12 will release its P.L.F.s
>that anon was wrong though they can be killed by using high caliber guns you just have to shoot them in the head and stomach and that will disable them although they can run extremely fast that's true
UPDATE (you can also disable them if you shoot them in the joints if you are good at marksmanship that will give you time to outrun them, they are fast but not that faster than humans not like the 2016 anon said)
>they will be out mostly in the major cities and coastal areas like I said in major population centers
>parallel to this, the American military forces will be rounding up survivors to enlist some of them in this so-called fight but most will be sent off to concentration camps disguised as refugee camps (remember this they will tell you are safe now we will take you to the refugee camps) that's when you know it's either run or you are DOOMED
UPDATE (look up my old threads to see what they will do to the survivors in those FEMA camps Jesse Ventura was right but didn't get the whole picture)
>in the camps they will put people into 2 categories undesirables or useful most will go to the first and the rest will be just like I said before
>BY THE END OF 2027 5 BILLION HUMANS WILL BE DEAD THE FAKE ALIENS WILL BE DEFEATED WITH THE HELP OF THE GOOD (REAL) ALIENS AND WE WILL BE A ONE WORLD GOVERNMENT UNDER THE U.N SECRETARY RAND BY MJ12 AND PART OF THE GFL
>but that doesn't mean that we are going to be alright no far from it you have to remember that most of the survivors will not be able to go back to civil life after the stuff they have been through the PTSD alone will mess them up for good
>BTW the Dome of the Rock will explode during/after the Israeli strike and like I said get ready for the false flags and assassination attempts by the end of this Trump will be a dead Prez at least
>here are the side of WW3 the bad guys- Iran Russia China Pakistan and Turkey and Saudi Arabia will both betray the USA and North Korea and others
>the good guys will be USA and its NATO allies and they will lose by the end remember guys it's all an act and it's all scripted
